CORE SERVICES

Elite Analytical Solutions is a consultancy comprised of subject matter and technology experts with a focus on Business Processes, Data Management and Analysis. From strategy to deployment of technical and data science resources, Elite Analytical specializes in transforming data and business requirements into Solutions that can optimize your business.

Roadmap & Strategy

Our team builds practical and actionable strategies to establish the foundation and direction necessary to ensure success throughout BI, Data and Analytical initiatives.

Analytics & Data Science

Exploit patterns found in data to predict behavior, risks and business opportunities. Leverage Predictive Modeling, Forecasting, Optimization and Machine Learning/AI for competitive advantage.

Business Intelligence & Insights

Create a self-service reporting environment including visualizations and dashboards that use KPI's to provide actionable insights and make data-driven decisions.

Managed Services

Capitalize on our team's technical and subject matter expertise to support your BI/Analytics platforms. Reduce support costs and free up your resources for other important initiatives.

Training

Empower your organization by developing a knowledge-driven culture, increasing adoption of technology, providing professional development and maximizing return on Analytics investments.

Data Management

Implement a cohesive governance strategy combining people, processes, and technologies to improve the availability, usability, integrity and security of enterprise data.

Cloud Services

Gain control of your cloud/multi-cloud environment, manage cost and consumption, improve scalability and assure security by engaging Elite's certified Cloud Resource Management team for project-based or ongoing support services.

Architecture & Development

Improve the quality and performance of your Analytics & BI platforms by fully understanding your business processes and technology infrastructure. We build powerful and scalable applications that comply with industry best practices for Analytics and Application Development.

Staffing Solutions

Complete your team and increase productivity with our roster of seasoned analytical, technical, and strategic professionals. Add the expertise of our resources when Elite brings the right candidate to your organization.
